

Industrial Complex Security Rules Agreement

Daehan Transport — Domestic dispatch service

The security rules below must be observed when carrying out transport work inside an industrial complex.

Security Rules

1. Entry procedures — Use the designated gates and cooperate with access registration and identity checks. Unregistered persons or vehicles may not enter or ride along.
2. Designated routes and speed limits — Follow the designated driving routes and speed limits within the complex, and comply with the control and instructions of the site authority.
3. No photography — Taking photos or video of facilities, equipment or processes within the complex is strictly prohibited.
4. Safety equipment — Wear the designated safety equipment, such as a hard hat and safety shoes, during loading and unloading and whenever moving outside the vehicle.
5. Access restriction for violations — Violation of these rules may result in restricted access to the complex; the violating party is responsible for any transport delays caused as a result.

Agreement & Signature

I have read the security rules above and agree to comply with them.
